

Embroidered Jacket, Shirt & Pants

What You Need:

****Savvy Stitches™ Divine Style embroidery transfers kit #73098 by Dimensions®**
Garments of your choice (they must be able to withstand the wool/cotton setting of your iron)

Iron

Scissors

Remember to Choose your garments carefully: the transfers print in black, so they will not show on very dark colors

Instructions:

Applying the Transfer

1. The transfers are printed with a special iron-on ink and can be used multiple times. The color may change after several uses, but it will still work. Set your iron to the wool/cotton setting and allow it to pre-heat. Do not use steam.
2. Look over your designs. Choose one to use for practice and cut it out if necessary. Be sure to trim off any excess printing or dots. Place the design face down on the right side of the scrap fabric. To make sure that the paper doesn't shift, use sewing thread to hand baste the paper to the fabric along one side. Don't use pins because the heads keep the iron off the paper, and don't use tape because the adhesive will mark the fabric.
3. Moving your iron in a circular motion, press the paper for 5 seconds. Allow it to cool, and carefully lift the loose edge to see if the lines are dark enough. If they are, remove the basting and paper. Once transferred, the design is permanent; it cannot be washed out.

**** About this product:**

. The kit includes a practice fabric, 30 transfers, a wide variety of thread colors, embroidery hoop, needle, and easy instructions. The instructions include diagrams for six different stitches: Satin, Back, Stem, Chain, French Knots, and Lazy Daisies.
