

Painted Serving Tray

Shopping List:

Paint Works™ Seashore Pair – 91199
K&Company Sea Glass Metal Charms – 562967
Drill
Wood frame – 9"x12"
Cabinet pulls
Hemp cording

Instructions:

1. Complete your 9x12" painted picture, allow to dry
2. Remove frame backing and glass.
3. Measure and mark placement of cabinet pulls on back of frame. Drill holes through frame and attach pulls with screws (you may have to use shorter screws than those that come with the pulls).
4. Re-assemble frame, inserting picture behind glass. To make the tray more water tight, add a thin line of clear caulk where the glass meets the frame.
5. Tie hemp cord on cabinet pull, adding charms if desired.
