### INSTRUCTIONS

1. Cut a 6 inch length of beading wire. Add a piece of tape to one end to keep beads from falling off as you add the beads.
2. Create a repeating pattern of crystals as shown in the example.
3. Add a crimp bead to the loose wire and remove the tape from the other end. Slip the loose end through the crimp bead and use the crimp tool to secure the crimp bead.
4. Add two jump rings to the tear drop, one for the necklace to slip through and one for the jump ring that holds the drop pendant.
5. Add a jump ring to the pendant and slip it through the jump ring allotted for it.
6. Add your choice of metal or silk necklace and wear it with style!
